# U.S. Leaning Toward Asylum For Inmates Held by Vietnam

By Bernard Gwertzman New York Times Service

WASHINGTON — The Reagan administration is nearing a decision to offer asylum to thousands of prisoners being held by Vietnam in "re-education camps," according to senior officials.

The contemplated U.S. action would be in response to earlier Vietnamese offers to release the prisoners if the United States agreed to resettle them. The prisoners are believed to number between 6,000 and 15,000.

In the past the administration has reacted skeptically to such proposals by Hanoi. But at the urging of refugee groups, some members of Congress and some U.S. offi-cials, Washington is said to View decided in principle to test Vietnam's sincerity and to seek the release of the prisoners, many of whom had close ties to the United States during the Vietnam War.

"I personally feel that there is almost no one more deserving of admission to the United States as a refugee than the people who are suffering in prison because of their past association with us," said Paul D. Wolfowitz, assistant secretary of state for East Asian and Pacific

Officials said in interviews last week that details of the new U.S. approach were being worked out so that they could be discussed by Secretary of State George P. Shultz when he meets with congressional committees on refugees Sept. 11.

nam's foreign minister, said his government would release all the prisoners if the United States would take them.

The offer was repeated in May by Prime Minister Pham Van Dong, who said in an interview in Newsweek magazine: "We are quite prepared to allow all of those left in the camps to leave tomorrow for the United States, but the U.S. government has rejected that suggestion. They prefer to leave these criminals free in Vietnam but not

in the United States."

The United States actually had not rejected the offer, according to officials dealing with refugee matters. But these officials had expressed the view publicly and privately that the Vietnamese were not sincere because they had not allowed the International Committee of the Red Cross into the camps and had not provided a list of the

After the Communist takeover of South Vietnam in 1975, the Vietnamese authorities set up a net-work of the so-called re-education camps, mostly in the North, to which thousands of pro-U.S. and other anti-Communist Vietnamese from the South were sent. At one time as many as 50,000 people were

that those in the camps "are regu-larly provided food rations below

In 1982 Nguyen Co Thach, Viet-subsistence levels, denied medical care and assigned to hard labor." "Prisoners are punished severely for minor infractions of camp rules, for example, by several months' solitary confinement and by beat-

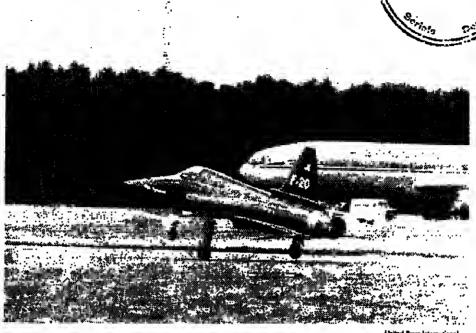

ings," it said. The United States has accepted about 700,000 refugees from Indo-china since 1975, about half of the worldwide total of 1.4 million who have been settled abroad. It has taken about 50,000 a year in recent years, most of them former "host people" who had made their way to Thailand and other countries.

On July 23 Roger P. Winter, director of the United States Committee for Refugees, wrote to President Ronald Reagan urging him "to break through the impotence that has characterized U.S actions" on the wicesees. on the prisoners.

In an interview Saturday, Mr. Winter said he had proposed that the administration set 10,000 immigration slots for camp inmates and their families in the fiscal year beginning Oct. 1. This would be above the 50,000 already planned for Indochinese refugees.

On Aug. 10, 13 inembers of Congress, led by Representative Stepben J. Solarz, Democrat of New York, wrote to Mr. Reagan, urging that the United States "seize the initiative and "send a clear signal to Vietnam that the United States" said to be in the camps.

According to former inmates, conditions for the prisoners are conditions for the prisoners are to Vietnam that the United States is genuinely interested in freedom conditions for the prisoners but the United States is genuinely interested in freedom conditions. locating 10,000 places for them and

# Chernenko Ties Space Arms Pact To Wider Talks

By Seth Mydans

New York Times Service

MOSCOW — Konstantin U. Chernenko, the Soviet president, was quoted Saturday as saying that an agreement with the United States on banning weapons in outer space would ease the way for discussions on other disarmament is-

answers to questions put to him by Pravda, the Communist Party newspaper, was the first major statement attributed to Mr. Chernenko since be left for a vacation July 15. His continuing absence from

public view has aroused rumors about his heatth and political standing. In the last week, his name has reappeared prominently in the official press on several minor

In the Pravda article Mr. Cherneako was quoted as repeating the Soviet position that the United States was scuttling the possibility of space weapons talks with its insistence on raising questions about stalled nuclear weapons negotia-

But, Pravda reported that he added, "such an agreement would not only prevent the arms race in outer space, but, what is no less mportant, would facilitate the solution of questions of limiting and reducing other strategic arma-

[A State Department spokesman, responding to Mr. Chernen-ko's statement, said Saturday that the United States was willing to return to the suspended nuclear disarmament talks and to take part in talks on banning space weapons. which the Russians proposed in June. Reuters reported from Wash-

["The United States is correcting the inbalances in the East-West

Union has opened up in recent years," the spokesman said, "and is seeking and will continue to seek more stable and constructive rela-tions with the Soviet Union through negotiations."]
Mr. Chemenko said the Soviet

Union was ready for bonest and serious talks with the United States on major political questions, but said that his country had not found a similar attitude in Washington.
He blamed the United States for

most of the problems of the world today, and said the Republican Party's election platform left a depressing impression that the Unit-ed States was on a erusade to force its will on the world with raw mili tary force.

Mr. Chernenko also repeated the

Soviet position that deployment of eruise and Pershing-2 missiles in Europe caused the Soviet walkout and the breakdown at the end of last year of negotiations on strategic and intermediate-range missiles in Geneva.

But he did not repeat Moscow's insistence that the missiles be removed before talks could resume. He said, "There remain today enough issues which need discussion and solution, and one will have to bandle them." Although Moscow has always fa-

vored serious and concrete talks on major political issues, Mr. Cher-nenko told Pravda, "regrettably, we bave encountered a different at titude to negotiations in Washington," adding that U.S. foreign policy was apparently oriented toward a dangerous heightening of international tensions. The Republican National Con-

vention last month, he said, showed the Reagan administration "flaunting with open cynicism their greatpower ambitions, exaggerated no-

According to the biblical book of Genesis, produced angry headlines and editorials. Christian after taking part in an expedition the ark was washed up on the mountain with about "Turkey's stoken heritage." The Ento the moon in 1971, said that he had visited

the Steffins site and had found "only rocks." "I think that Steffins spent too much time on the mountain over the last two years and may just have been dispirited into making so significant an announcement," he said.

Mr. Steffins's claim to have located the probable site of the ark was also disputed by the leader of the team from the Institute of Creation Research, John Morris.

"Steffins went to look at a strange geological formation that looks exactly like a boat, Mr. Morris said. "He became very excited with what he found there, collected some samples, and then just packed up and left."

"If he had only waited to consult us," he added, "we could have told him that the area has been thoroughly researched before. We know it is simply a very unusual rock forma-tion that is definitely not Noah's Ark."

At his press conference, Mr. Steffins said Mr. Steffins also was criticized by the that the rock formation correspondended to the dimensions of the ark given in Genesis: 300 cubits long, 50 cubits wide and 30 cubits high. (A cubit is believed to have equaled 18 to 22 inches, which would make the ark at

#### Walesa Denounces New Jailings

WARSAW (UPI) - Lech Walesa, the Solidarity leader, denounced the anthorities Saturday for sending two recently freed union activists back to jail for speaking at demonstrations marking the outlawed union's fourth anniversary.

Wladyslaw Frasyniuk and Jozef Pinior were arrested in the southwestem city of Wroclaw during the rallies Friday and given two-month terms for "disrupting public order." They were the first people returned to

prison since the amnesty was set in motion July 21. Prime Minister Wojciech Jaruzelski accused the United States of instigating the protests calling for restoration of Solidarity. He said Saturday that the United States "is instigating the operation of anti-state forces and is creating artificial publicity around them."

#### Opposition Leader Chosen in Greece

ATHENS (AP) — Former Foreign Minister Constantine Mitsotakis has been elected leader of the leading Greek opposition group, the

conservative New Democracy Party.

Mr. Mitsotakis, 65, from Crete, defeated the former interior minister. Constantine Stefanopoulos, 58, a lawyer from western Greece, in a polling of New Democracy members of Parliament. The vote was 70-41. Foreign minister from 1979 to 1981, Mr. Mitsotakis replaced Evangelos Averoff, 75, who resigned last week after almost three years as party leader. Mr. Averoff had been charged by party members of failing to muster effective opposition to Prime Minister Andreas Papandreou's Panhellenic Socialist Movement. Addressing deputies after his election, Mr. Mitsotakis pledged to maintain a "mild political climate."

#### Escape in Crate Reported in London

LONDON (AP) — Scotland Yard said it is looking into reports that the head of Nigeria Airways, who is sought for questioning in the abduction of a fugitive Nigerian politician who was found in a crate on July 5, himself escaped from Britain in a crate marked as diplomatic

aggage.
The reports Saturday said that Group Capt, Bernard Bamfa had fled impact of the accord on his efforts to resolve the conflict in Chad. About 5,000 Libyan troops have on one of his company's planes earlier this week, using the same method as Umaru Dikko's kidnappers. The Times of London said that Mr. Bamfa had arrived in Lagos, the Nigerian capital.

Mr. Dikko, accused by Nigeria's military government of plundering

been supporting rebel forces against the government of Hissene Hahre, which France is supporting. Diplomats in Tripoli said King Hassan might view the union with the national treasury when be was transport minister, was found drugged inside a cargo crate with diplomatic labels at Stansted Airport outside London. The crate was about to be put aboard a Nigeria Airways flight Morocco as a temporary marriage of convenience that would formally.

#### U.S. Agency Rules on Microbe Release

WASHINGTON (WP) - The Environmental Protection Agency has ruled that genetically altered organisms cannot be released into the environment unless the agency is notified.

environment uniess the agency is notified.

The ruling came in a case involving a genetically altered microbe engineered to inhibit the growth of frost on potatoes.

The environmental agency said it would require notification of a proposed release and would determine if an experimental-use permit is required. To obtain a permit, a company or scientist would have to submit detailed information that would belp the agency assess potential environmental risks and, perhaps, impose further safeguards.

#### Swaziland Says Prince Planned Coup

MBABANE, Swaziland (AP) - The deputy head of state, Prince Sozisa Dlamini, has been suspended after reportedly attempting to lead Swaziland's armed forces in a coup in June, the Liqoqo, the nation's supreme council of leaders, said Sunday.

There was no word on the whereabouts of the prince, known for his strong beliefs in traditional Swazi customs, or if he is to be punished.
Swaziland's half-million people have been governed since the death of
King Sobbuza II in 1982 by the Liqoqo. After King Sobbuza's death there
was friction among princes who want Swaziland to remain a secretive,
traditional monarchy and those wanting representative rule.

#### **Bourkina Fasso Government Named**

OUAGADOUGOU, Bourkina Fasso (Reuters) - The president of Bourkina Fasso, Captain Thomas Sankara, has named a new government that reduces the influence of the Patriotic Development League, a Marxist party, according to official sources.

The new government named Saturday replaces the one Captain Sankara dissolved last month when the country's name was changed from Upper Volta. Four influential government members - Adama Tourt, ister of information; Philippe Ouedraogo, minister of supply and telecommunications; Emmanuel Dadjouari, minister of arts and education; and Arba Diallo, minister of foreign affairs - are not in the new

The former environment and tourism minister, Laitar Basile Guissou, has been promoted to foreign minister, and Major Jean-Baptiste Lingani remains defense minister. Captain Blaise Compaoré retains his position as minister of state to the presidency, Captain Sankara's No. 2.

#### Floods Hit South Korea, Philippines

SEOUL (AP) - At least 96 people were reported dead or missing Sunday as torrential rains continued to batter Scoul and its environs, flooding thousands of dwellings, Home Ministry officials said. They said the Han River running through the city had reached the danger level. Flood waters fed by two days of rain have left 30,000 people

homeless and disrupted traffic, communications and utilities.

In the northern Philippines, at least 53 people were reported dead and 150,000 others homeless following a severe storm. Red Cross officials said casualty figures could be raised when reports were received from remote

#### **Ivory Coast Corruption Trial Ends**

ABIDJAN, Ivory Coast (Reuters) - Seven people have been senenced to long prison terms following a two-week corruption trial

involving former state housing officials. Six of the seven were sentenced Saturday to 20 years; the seventh received a 10-year term. Most of the seven, including the bushand of Jeanne Gervais, a former Ivorian women's affairs minister, also were fined \$6,800 each and ordered to repay the state millions of dollars in embezzled funds.

Those sentenced were found guilty of such offenses as charging the government exorbitant rents for nonexistent dwellings and allowing people to stay in other houses rent-free.

The Market Strine

Lebanon to Memorial The Marine Corps is planning to add Lebanon to the list of military eogagements inscribed on the granite base of the lwo Jima Memorial across the Potomac River from Wash-

ingion.
The proposal has been approved by the National Park Service, the keeper of the nation's monuments.

The Marines were first sent to Lebanoo briefly in August 1982 and the following month President Ronald Reagan sent in a larger contingent as part of a multinational force. Before they were withdrawn in February 1984, the Marines sustained more than 250 casualties, most of them in the bombing of their compound at Beirut Interna-tional Airport in October 1983.

#### \$1-Million Fish Didn't Take the Bait

The one that got away wasn't all that big, but it was worth a lot of money.

Some 4,000 fishermen recently spent a day trying to catch a 5-pound (2.25-kilogram) blue-fish that had been netted off Bridgeport, Coonectieut, tagged and released into Long Island Sound. The sponsors were a Connecticut radio station and a nonprofit group that promotes activities oo the sound, a favorite East Coast re-

The object was to catch the fish before the one-day dead-line. No one did, and the insurance company that sold the policy guaranteeing the \$1-millioo prize as a 20-year annuity breathed a sigh of relief.

The odds in the insurance company's favor were boge: Long Island Sound covers more than a thousand square miles (more than 2,500 square kilometers) and contains perhaps a millioo blucfish.

However, there was a winner of the prize for catching the biggest bluefish. Oscar Navar-

# Reagan Assured, Mondale Aggressive for Fall Race

By David S. Broder

Washington Post Service WASHINGTON — President Ronald Reagan and his Democratic challenger, Walter F. Mondale, officially kick off their fall presidential campaigns Monday with a shared belief that the outcome will shape the country's future, but with very different strategies for winming the race.

Mr. Reagan - who holds the biggest pre-Labor Day polling advantage of any incumbent in 12 years, but one his strategists say is oot erosion-proof — hopes to amass an electoral college victory as big as his 44-state sweep in 1980.

blocs created in the last 44 months, and hopes to trigger a huge increase in voter turnout. Even if that happens, sides concede that Mr. Mon-dale would be lucky to eke out a narrow electoral college victory.

Mr. Mondale, who trails everywhere, wants to "come out smok-ing" and try for an across-theboard increase in his share of the .1972. vote. That desire is symbolized by Mr. Mondale's scheduled campaign sweep on Monday with his vice presidential candidate, Geralvice presidential candidate, Geraldine A. Ferraro, from New York in Dallas last month. through Wisconsin to Long Beach,

His campaign chairman, James A. Johnson, says the goal is to more than nine points. In 1976, a "raise the stakes" for the voters by similar swing carried President stressing his disagreements with Reagan policies, and by contend-ing that they will endanger the fu-ture of the United States.

Mr. Reagan is to start his campaign in friendly territory in his home state of California, while Vice President George Bush will spend the week mainly in the South. The West and the South offer the Republicans a seemingly the White House.

secure electoral base, something

Mr. Mondale lacks.
Next week, Mr. Reagan plans to carry the attack to Mr. Mondale in the more marginal Middle West and Northeast. The president will

start at a measured pace, according **NEWS ANALYSIS** 

to his campaign director, Edward J. Rollins, then increase the pressure as the Nov. 6 election ocars. And although Republicans as-sume that Mr. Mondale will deliver

"a pretty shrill attack" on Mr. Reagan's policies, in Mr. Rollins's words, "the president will not re-By contrast, Mr. Mondale seeks spond," but rather will emphasize this themes of strong leadership and

> starts with a lead that was measured as 52 percent to 41 percent in an August Gallup Poll. This is the best position for an incumbent since Richard M. Nixon's 34-point lead over George S. McGovern in

> But the history of polling bears out the warnings against compla-cency that filled the hall of the

Four years ago, President Jimmy Carter had a six-point lead over Mr. Reagan in August and lost by similar swing carried President Gerald R. Ford up from a 17-point deficit to a narrow two-point loss. in 1968, Hubert H. Humphrey started out 16 points behind Mr. Nixon and ended up losing by less

than one point.
But Mr. Mondale is also running against a politician who has oever lost a general election campaign. and running against the power of

Two elements in the politics of 1984 add to the uncertainty. First, the August effort paid dividends Ms. Ferraro is the first woman on a and asserts that Mr. Mondale can major-party ticket. She has been drawing so much attention, favor- ly." able and unfavorable, that Mr. Rollins suggested that one of Mr. Mondale's main objectives in the next few weeks must be "to get himself out front and get her on the back pages, where vice-presidential

candidates are supposed to live." The second uncertainty is the outcome of the registration race in which both parties are now en-gaged. With help promised from the Reverend Jesse L. Jackson, whose presidential nomination bid beiped swell the ranks of black voters. Democrats hope to enlist millions more of the low-income voters who are likely to back their

Republicans say that, so far, they have at least kept pace by targeting military families, young business people who have moved and, parocularly, evangelical Christians, and adding more than two million of them to the rolls.

Mr. Mondale is targeting by demography, rather than geography
— a judgment the Republicans think is a mistake. Mr. Rollins and others have questioned wby Mr. Mondale and Ms. Ferraro did oot use August to "nail down their base," the band of states between his Minnesota and her New York, rather than scatter their efforts through the South, the West Coast and the Great Plains.

The critics will raise more quesoons about this week's schedule, which shows Mr. Mondale and Ms. Ferraro heavily committed in Cali-fornia, where Mr. Reagan has never been defeated, and campaigning also in places like Spokane, Washington, and Merrill, Wisconsin, which are hardly centers of Demo"move the voter numbers national-

To the extent that there is targeting oow, he said, it is aimed at "Democrats who voted for Reagan in 1980 and both Democrats and independents who voted for Gary Hart," the Colorado senator who was Mr. Mondale's main challenger for the Democratic nomination.

Republicans agree that the target groups for 1984 are the 1980 hinecollar Democrats-for-Reagan and the "Yuppies," or young urban professionals. Both sides also are aiming at ticket-splitting Demo-crats and independents who liked Mr. Hart last spring.

The logic of the Republicans' schedule is evident. Mr. Reagan is to open in California and Utah to "solidify his base," as Mr. Rollins put it, then go to Chicago for the first foray into the Middle West-Northeast area that ought to be

Mondale-Ferraro territory but that so far, the polls say, is not.

By this technique, Mr. Rollins said, Republicans "can test if the

leads we have in what should be their territory are solid. If they are - if they hold up through Oct. | we can go for a big win, a 50-state strategy. If not, we still have a strong base on which to fall back."

Mr. Mondale's strategy is riskier, but the trailing candidate has fewer options. Wherever Mr. Mondale campaigns, Mr. Johnson said, his aim will be to show the voters that "this is a critical election, whose outcome can affect their future and that of their children."

Mr. Mondale, according to a senior adviser. Richard C. Leone, will emphasize four themes: his disagreement with Mr. Reagan on arms control; his challenge to Mr. Reagan to raise taxes and curb the budget deficit; his opposition to Mr. Reagan's domestic spending cuts; and his opposition to Mr. Reagan's call for school prayer and

#### Kahane Urges Jews to Shun Mondale And Calls Jackson a 'Vicious Fraud'

United Press International NEW YORK -- Rabbi Meir Kahane has started a campaign to convince American Jews not to vote for Walter F. Mondale, saying he wants to punish the Democratic Party for giving in to the Reverend Jesse L. Jackson.

Mr. Kahane, a member of the Israeli Knesset, or parliament, said at a oews conference that "Jackson is such a vicious fraud, such a Jew-

Mr. Kahane said he "wants to plead with American Jews to pun-ish the Democratic Party because

of giving in to Jackson," a former Democracic presidential hopeful.

Mr. Kahane also described Mr. Mondale as a "gutless wimp" for not denouncing Louis Farrakhan, the leader of a Black Muslim sect who supports Mr. Jackson. Mr.

Farrakhan angered Jews with a se-

ries of remarks considered and-Se-

The news conference Friday was Mr. Kahane's first in the United States since his election to the Knesset five weeks ago. Mr. Kahane, 52, who was born in Brook-lyn, said he hoped to be in the United States two weeks.

# **B-1** Crashed Avoiding Other Plane, Sources Say

By Wayne Biddle
New York Times Service
WASHINGTON — The B-1A

prototype bomber that crashed last week stalled while maneuvering to avoid an observation plane, according to government officials who said they heard the explana-tion from military sources.

They said Friday that an F-111 observation plane went too close to the bomber, prompting its pilot to bank sharply to the right, which caused a sudden loss of lift.

Air force spokesmen at the Pentagon and at Edwards Air Force Base, California, where the crash occurred, declined to discuss its cause pending an official investigation. The air force did confirm that the F-111 was filming the bomber's test of flight control at low speeds. Rockwell International Corp.

the prime contractor on the B-1 project. The company's chief test pilot, Tommie Douglas Benefield, was killed in Wednesday's crash. The Washington Post and CBS News have quoted sources who

said that the plane stalled when the crew lost control while testing how slowly the bomber could fly at low altitude [Meanwhile, Tommie Douglas

The Voice oow has six 500-kilo-

watt transmitters, while the Soviet Union has 37 for similar shortwave broadcasting, France, 11, and Brit-

The efforts to reshape the Voice have been explicitly encouraged by President Rooald Reagan. Last year Mr. Reagan devoted a radio address to the oced for oew equipment at the station. The president recently returned to the theme in a White House speech to Polisb-Americans.

He praised the improvements in the Voice, saying, "Our broadcasts will carry the truth to capove people throughout the world."

The Voice of America is one of the more unusual agencies of the federal government. It is part of the United States Information Agency and it combines political appointees, career Foreign Service officers and professional journalists who serve as correspondents in Washington and foreign capitals.

The Voice of America, broadcast Tomlinsoo said.

ning a journalistic enterprise under government rules constitotes an other Western broadcasters beunnatural act," Mr. Tomlinson

Some of the Reagan administration's innovations for the Voice, such as the advent of editorials extolling administration policy, have caused opposition and fears that the broadcasts could be seen as propaganda. But other initiaoves, including the drive to huy better transmitters, have gained bipartisan support.

Mr. Tomlinson says the world of international broadcasting is becoming increasingly competitive. The cost and size of shortwave receivers have been dramatically cut by new technology, and the poten-tial audience has grown. Since 1950 the number of transmitters worldwide has grown from 385 to 1,580.

the Voice says.
This competition involves familiar names like the British Broadcasting Corp. But countries like Japan are also on the verge of a major expansion of shortwave services, and China may follow suit, Mr.

good," Mr. Tomlinsoo said. "I've encouraged a competitive sense be tween the Voice of America and cause I wanted to get across to our people that we needed to offer a daily documentary that was better than the BBC's. From an internal standpoint I tried to increase the awareness of the competition because, internationally, the competition is out there."

The Voice of America estimates its audience at 110 million people over the age of 15 who tune in at least once a week. Officials concede that these figures are guesses. In Eastern Europe, for example, a listener survey is based on interviews with travelers from the Communist bloc who are visting the West.

Mr. Tomlinson said the Voice of America charter required the broadcasts to present the views of the administration.

"Someone complained that your editorials sound just like Rooald Reagan," Mr. Tomlinson said, "and f said you're darn right and I'm proud of it. The editorials should reflect the viewpoint of the

# In Nicaragua, All the Above

Here is a multiple-choice question. Since June. American and Nicaraguan negotiators have met four times. Both sides call the results constructive. What does constructive mean? • That the hawkish Reagan administration

is throwing a crumh, this election year, to domestic doves? • That the State Department is pushing for

bureaucratic advantage against the more bel-ligerent Pentagon and CIA? • That the Sandinists want at least to look

reasonable to world opinion? That both countries truly want a live-and-

let-live arrangement? The right answer, probably, is all of the above. Both sides are marching crabwise, because there is no consensus on any strategy except to play for time. Yet to judge by leaked accounts, the negotiators have put on the table

the essence of a workable bargain. Washington wants Managua to end any aid to Salvadoran insurgents, to cut military ties with the Soviet bloc, and to honor promises of free elections. Almost symmetrically, Nicaragua asks the United States in cease its help in "contra" rebels, reduce the American presence in Honduras and El Salvador, and respect

Niearaguan sovereignty. What makes such a bargain conceivable are the constraints on both sides. President Reagan cannot drum up votes even for a covert war. The Sandinists know that to follow Cuba into overt communism would demolisb support from Latin and European democracies.

Then why don't the parties cut a deal? Because the gulf of suspicion is too wide. Americans fear that if the siege is lifted, the Sandinists will resume covert gun-running to guerrillas elsewhere. Nicaragua fears that the CIA would exploit any settlement by resuming its covert aid to contras.

The one promising note is the Sandinist pledge, made with an eye on foreign opinion, in hold elections on Nov. 4. But that vote can make a difference only if it points the way to a genuine multi-party state.

Nicaragua is not Cuba, not yet. Sandinist rule is challenged by a coalition of democrats, by an opposition newspaper that is censored yet survives, by an embattled private sector and a hostile Roman Catholic Church. Something like a political debate continues.

But for years, the country has been ruled without a constitution, without votes, without real opposition parties. No opinion polls are allowed and yet the regime claims to speak for almost everyone. If so, why should it fear giving Arturo Cruz a chance in run for president? Mr. Cruz is an outspoken democrat who broke with the Sandinists when they betrayed their pluralist promises. He is asking reasonable guarantees of fair access to state-controlled media in an election he has little chance of winning. But even a decent showing would begin to open up a closed system and provide, finally, a multiple choice that can make a lasting difference.

- THE NEW YORK TIMES.

# On the Mont-Louis's Cargo

When the French freighter Mont-Louis sank before the beginning of the first oil crisis. in the English Channel recently, it was carrying a cargo of uranium on its way to the Soviet Union. The Russians were to enrich it under a commercial contract for use as reactor fuel and ship it back in cusimmers in France, Belgium and West Germany. The sinking raised two questions. First, is the uranium dangerous? And why were the French sending it in the Russians for enrichment?

No, the cargo is not dangerous, When uranium is in its natural state, as it is mined out of the Earth, about seven-tenths of 1 percent of it is U-235. That is the isotope that can be made to fission in order to generate heat - or to explode. Most of the uranium in this cargo was at the natural level or slightly below. Some of it was enriched slighly to nine-tenths of | percent U-235. The Russians were to have brought it up to 4 percent, the customary level for civilian reactor fuel. Weapons require enrichment closer to the 90-percent level

Why go to the Soviet Union? Up to the early 1970s, the United States enriched just about all of the fuel for all reactors worldwide except the Russians'. The West Europeans were uneasy about such total dependence on the Americans for a crucial supply, and they began to turn to the Soviet Union as a second source. The cargo of the Mont-Louis was going to the port city of Riga under a contract signed in 1973, just

While the oil crisis made the Europeans more apprehensive than ever about security of supply, access to American enrichment over the following years seemed to become less dependable. In the Nixon-Ford period, the United States talked about turning the enrichment business over to private enterprise and raising the charges. In the Carter administration, it imposed unilateral conditions on the fuel to try to prevent diversion to weapons. The Europeans considered the conditions ineffectual and demeaning. They responded hy developing their own enrichment capacity and ing their Soviet contracts as a further alternative. To the Europeans, security of sup-

ply means having a choice of sources. There is a lesson here for the United States in its struggle to prevent the proliferation of nuclear weapons. As more countries around the world rely on reactors for electricity, it is important for Americans not to pursue policies that encourage them to build more and more enrichment plants. Enrichment, remember, is the link between reactor fuel that will not explode and bombs that will. Earlier this year the U.S. energy secretary, Donald Hodel, promised other countries cheap and reliable enrichment in the United States. That is a notable incentive to nonproliferation.

# U.S. Needs a Serious, Bipartisan Approach to Soviet tion revived John Foster Dulles's po-licy of "rollback" in Eastern Europe —whether as serious policy or mere-

By W. Averell Harriman, Clark M. Clifford and Marshall D. Shulman

N EW YORK — The spectacle of a great nation leaving crucial issues - the control of nuclear weapons and America's relations with the Soviet Union - to media consultants and image manipulators, the modern gladiators of politics, increasingly is generating apprehension among many Americans as well as in the wider world. What is needed instead is serious discussion leading to solid

bipartisanship. The most urgent matters confronting us -- nuclear weapons and superpower relations — can no longer be left to the vagaries of circus politics. If the governance of the United States is to be equal to Americans' responsibilities, both parties must seriously discuss the choices to be made, and out of that discussion must come, in place of extremism, a new articulation of the measured center eround that can restore bipartisan

support for responsible policies. It defies common sense to assert that the United States has become more secure. In fact, since 1981 its situation has become deeply trou-bling. There has been a total break-

BRUSSELS — Sovereignty and independence were not mentioned in 1968 when Leonid Brezh-

nev explained to Czechoslovak lead-

ers, after they had been shipped to Moscow, the reasons for the invasion

of their country.

Zdenek Mlynar, a close associate
of Alexander Dubcek, summarized
the Soviet leader's explanation:

Your country lies on territory where

the Soviet soldier trod in World War

II. We bought that territory at the cost of enormous sacrifices and we

shall never leave it ...
"In the name of the dead in the

world war who laid down their lives

for your freedom as well, we are therefore fully justified in sending

our soldiers into your country so that

we may feel truly secure within our common borders. It is immaterial

whether anyone is actually threaten-

ing us, it is a matter of principle, independent of external circum-

stances. And that is how it will be."

Now, 16 years later, Soviet leaders express the same attitude toward

East Germany and other so-called allies. Has the Kremlin, in the 40

years since the war, been unable to

assure its power and the cohesion of

its empire by any means other than

ly campaign rhetoric is not clear. The only plausible explanation for the overall course is that those with a dominant voice in the administration have a not-so-hidden agenda leading toward confrontation, to the mistaken belief that the Russians can be forced to buckle. In effect, that agenda has been advanced by Moscow's lack of restraint in exploiting opportunities in the Third World and in its military programs — for example, in deployment of SS-20 missiles. The absence of strong, self-confi-

dent political leadership in the Kremlin during a prolonged succession process has made it difficult to exercise control over the military establishment But the Soviet leadership. whatever its present condition, faces major economic problems, heightened by the prospect of still greater deflection of resources in the military. Whether Moscow's concern about this is powerful enough to bring it in accept negotiated limits on the military competition is not entirely clear. That possibility should be tested by serious U.S. efforts to shape agreements that serve both nations legitimate security interests. Such efforts need not presuppose trust or benign Soviet purposes; they depend only on the extent in which Moscow recognizes its interest in reducing the risk of war.

All presidents from Dwight Eisenhower through Jimmy Carter sought in reduce the danger of nuclear war by limiting nuclear weapons through negotiation. They did so not because they liked the Soviet Union, nor out of disregard for the military balance, but because they understood that U.S. security requires more moderate and more stable levels of nuclear arms, not unregulated competition. American presidents did not all succeed - but, until now, they tried.

Restoration of this commitment and creation of a politically effective bipartisan constituency in support of it must be America's No. 1 priority. It can be achieved only through honest discussion and debate — not by bit-ter, grotesque simplifications that call into question the patriotism of

As for the Democrats, they would err grievously if, in pursuit of hardline supporters, they were tempted to compete with the Reagan administration's extremist appeals.

The nature of the debate will affect

the level of understanding and the climate of opinion that will influence U.S. policies whoever is elected. If America is to make a new start after the campaign, responsible people, Republicans and Democrats alike, must immediately begin to address the issue of nuclear arms with the seriousness it deserves. There is a potentially lethal reality to be faced; What, in the end, will it profit any candidate to win an election hut suffer the loss of the peace that so many loyal Americans have fought so hard to preserve?

W. Averell Harriman, former am-bassador to the Soviet Union, has been tviser to five presidents. Clark M Clifford was counsel to President Harry S. Truman and defense secretary in the Johnson administration. Marshall D. Shulman, director of the Harriman Institute for Advanced Study of the Soviet Union at Cohembia University, served as special adviser on the Soviet Union to two secretaries of state during the Carter administration. # This Time, a Big Voter Turnout May Not Benefit the Democrats

N EW YORK — Voter turnout is almost certainly going to rise in the 1984 presidential election, ana-lysts believe. They differ on the extent of the increase but agree on its main cause - Ronald Reagan, whom people strongly support or passion-

ately oppose. Generally speaking, a big turnout should favor the Democrats: there are more of them, and more potential Democrats among the low-income and minority Americans who make up much of the public that has not been voting. But this result cannot be taken for granted in 1984. The American Coalition for Tradi-

tional Values, for example, is working assiduously to register two mil-lion new voters in states believed to have large fundamentalist Christian — probably pro-Reagan — popula-tions, And Frank Fahrenkopl Jr., the Republican national chairman, re-

ports that more than 1.5 million new Republicans already have been registered; his goal is 2 million. Some polls, moreover, show Mr. Reagan so popular personally that he

runs more strongly among "all vot-ers" than among those identified as highly motivated to vote. If that is true on Election Day, a big turnout could benefit him.

So it is less certain than usual, although still likely, that a heavy vote will help the Democrats. In Otto, for example, Secretary of State Sherrod Brown, a Democrat, has supervised a registration drive that has put 425,000 new voters on the books since 1983 — a likely boon for his party — for a total of about 5.9 miltion. Yet an estimated 1.7 million voting-age Ohioans remain unregis-tered. If a big enough percentage of

By Tom Wicker

them register and vote in November, Walter Mondale probably will carry the state for the Democrats. But i only a small proportion register and vote, Mr. Brown speculates that as many as half could be Reagan voters. At least three million unregistered, voting-age blacks are believed to be resident in the eight Southern states that Mr. Reagan carried in 1980 by a total of less than 182,000 votes. On the face of it, a huge registration and turnout of blacks for Mr. Mondale in those states could overturn that re-sult; but an expanded fundamentalist Christian vote and/or a white voter backlash might diminish the effect of the new black participation. The highest turnout in a recent

presidential election was 62,6 percent of voting-age population in 1960, af-ter the close and exciting race between John F. Kennedy and Richard M. Nixon. Since then, it has been

tion of 18-year-olds — so far, a low-turnout group — in 1972. By 1980, only 53.9 percent voted. Mr. Reagan won 51.6 percent of the votes cast, which means he was elected by just over a quarter of the voting-age population. Here are some reasons analysts expect an upturn: Strong feelings about Mr. Reagan and his policies, as well as a

downhill, particularly after the addi-

perception that the "issues gulf" is greater than usual. • The interest and intensity generated hy the presence on the Demo-cratic ticket of Geraldine Ferraro, the first woman nominated for vice presi-

dent by a major party.

The rise of well-organized and well-financed interest groups, all ac-

tive in motivating adherents to vote.

• Well-targeted registration drives all across the spectrum, from funda-mentalists to minority groups. Blacks, in particular, are expected to increase their participation.

· Higher-than-expected turnouts

in 1982 and 1983 state elections.

Two demographic factors—the aging of the population, because the elderly tend in vote in higher proportion than most age groups; and signs that those aged 25 to 40 years are beginning to take a larger role.

Peter Hart, the Democratic poll. taker, believes 1984 may be "the first 100-million vote election": 86.5 mil-lion voted in 1980. Mr. Brown thinks

the 62.8 percent of 1960 than the 53.9 of 1980. Such an increase would be good in itself, and probably, if not certainly, a plus for Mr. Mondale. The New York Times.

the national turnout will be nearer

#### FROM OUR SEPT. 3 PAGES, 75 AND 50 YEARS AGO

1909: Did Cook Reach the North Pole? LONDON - Dr. Frederick A. Cook's discovery of the North Pole arouses interesting com-ment in the "Morning Post" [of Sept. 3]: "In his dispatch to the New York Herald Dr. Cook tells how, following tracks worn by big game, he reached the Polar sea and set out across the ice pack with two Eskimos and thirty-six dogs. and how, after incredible hardships and privations, they reached the North Pole on April 21, 1908. It is a startling story, and for the present it must, of course, he accepted with reserve. A man of science like Dr. Cook would be the first in condemn an attitude of unhesitating credulity. He will recognize that it is the duty of geographers and scientists to make sure that there lurks no possibility of error.

1934: U.S. Textile Workers Strike WASHINGTON - One of the most serious strikes in the history of industry in the United States, and the first major threat to President Roosevelt's recovery program, began [on Sept. 2] when the last of 850,000 cotton, woolen and silk workers left their jobs on orders from Francis J. Gorman, chairman of the strike committee of the United Textile Workers' Union [which is demanding a revision of the N.R.A. Textile Code for a 34-hour workweek without reduction of wages], with instructions not to return when work would normally resume [on Sept. 4]. Industry and labor thus squared off for what is believed will be their greatest battle in a strike which would cut off \$7 million a week from U.S. purchasing power.

#### True, U.S. Lost Face, but Lebanon Is Surviving By Barry Rubin

WASHINGTON — Two years after Ronald Reagan first committed American marines to Lebanon on Aug. 24, 1982, the lessons of U.S. involvement there can be summarized by the aphorism: If you don't succeed at first, don't try again too soon, too strenuously. U.S. policy on Lebanon shifted

overnight from top-priority focus to almost total neglect. When the ma-rines were in Bernut, Mr. Reagan warned that "if Lebanon ends up under the tyranny of forces bostile to the West" — Syria and its allies - "not only will our strategic position in the eastern Mediterranean be threatened but also the stability of the entire Middle East." Lebanon, he added, "is central to our credibility on a global scale."

But this July, the assistant secre-tary of state for Near East and South Asian affairs, Richard W. Murphy, told a congressional hearing that, in line with American support for a broader government capable of "restoring stability and security" in Lebanou, "We believe that Syria has been one of the helpful players." Ironically, this turnaround in American attitudes may not have been such a bad thing, course in order to keep others' con-

True, U.S. policy was confused, undermined by conflicts between government departments and constant shifts in personnel and objectives. Few policy makers really con-

they did think too much about the global balance and knew too little about the local situation. Yet the U.S. decision to withdraw the marines was not necessarily a sign of weakness and was not neo sarily seen as such by America's Arab friends and allies.

sidered Syria a Soviet pupper. But

Critics of American policy in the Middle East are constantly arguing that Washington has fumbled some supposedly easily accomplished set-tlement of the Iran-Iraq war nr Arab-Israeli conflict. Falling to achieve such a breakthrough and faltering in Lebanon, they claim, has lost the United States influence

and credibility in the Arab world.
But "credibility" is one of the most dangerous words in the diplomatic lexicon - usually the final

defense for a faltering policy. We

know our position is wrong, it usu-ally implies, but must stay the

fidence. In reality, the people we are trying to impress hy our steadfastness often take a very different view of our policy than we imagine to be the case. Saudi Arabia and several political factions in Lebanon, for example, praised the U.S. presence privately while attacking it publicly.

America's friends in the Middle

East often express doubts about U.S. credibility. But few of them are questioning American power: Most are merely trying to turn it to their advantage. Time and again local actors in the region expect the United States to provide a solution; they invariably overstate U.S. power.

do all the work, make the concessions and take the hlame. In this game, questioning American credi-bility is simply a bargaining chip. What does all of this mean for Lebanon? The United States may have suffered some loss of face. But now, at least, no one is expecting i to handle a crisis it cannot hope toresolve. And, luckily, the Syrians are now addressing the issue in a

way that, as Mr. Murphy suggested

may turn out to be quite helpful.

They expect the United States to

Despite the apparent American de-feat in Lebanon, Syrian policy today takes considerable account of American interests and power. Of course, Syria's own interests come first: Weakened by internal strains and stymied by intractable Leba-nese politics, Damascus now has its own incentive to end the Lebanese civil war - something it viewed as neither possible nor desirable be-

fore 1982. But this is good for both Lebanese and U.S. interests. While the United States can play a helpful role, it cannot end either the Iran-Iraq war or the Arab-Israeli conflict if local forces remain intransigent. It is sheer folly to oversimplify these issues - and U.S. failure to produce miracles in the Middle East need not be destructive of American interests. The U.S. experience in Lebanon has been costby but if it taught President Reagan something about the limits to U.S. reponsibility and influence there, it was an indispensable lesson.

The writer, a senior fellow at Georgetown University's Center for Strategic and International Studies, contributed this comment to The New

#### LETTER

The Business of Learning Regarding the report "Private Busi-ness School in Germany Is Providing Model for Competitors" (July 21):

The report states: "Paradoxically, in a country that derives a third of its gross national product from exports. there has been until now only one school that provides a specialized education io business with an international perspective, along the lines of the Harvard, Stanford and Wharton graduate programs and the Thun-derbird School of International Management in Arizona."

Schiller International University is an independent school accredited by the Association of Independent Colleges and Schools, offering business administration and other degree programs at the undergraduate and graduate level since 1964. With study centers in Heidelberg, London, Ma-drid, Paris and Strasbourg, Schiller provides students from more than 70 countries the opportunity of an American education to a multicultural environment. At Heidelberg, SIU: offers a Master-of International Management program along the lines of that of the Thunderbird School of International Management and, as of this fall, an MBA program.

Relatives Want Information on Why Airliner Strayed Over Soviet Territory

By Clyde Haberman New York Times Service

OFF MONERON ISLAND, Sea of Japan - Relatives of Japaoese passengers killed wheo a South Korean airliner was shot down last year have accused the United States of withholding information that could explain why the plane strayed over Soviet territory.

The group was aboard a ship in the area where Korean Air Lines Flight 007 was downed by a Soviet fighter on Sept. 1, 1983, killing 269 people. There were 28 Japanese

A spokesman for the relatives of the Japanese victims issued a statement saying the plane might have been part of "an elaborately preschemed plot on the part of a goverument agent of a certain coun-

Shozo Takemoto, the spokesman, said the "certain country" presumably the United States was not named because the allegation could not be proven. That is why "we ask the United States to disclose every information it has in its hands," he said.

The group also denounced the Soviet Union for perpetrating the cruelest brutality that could have beeo done by a civilized nation,"

On Saturday, 79 of the Japanese relatives chartered a boat and sailed nearly five hours to a point 25 miles (40 kilometers) northeast of Moneron Island in the Sea of statement said.

Japan, where Flight 007 is believed to have gone down.

The island is Russian but the boat, accompanied by a patrol craft from the Japanese Maritime Safety Agency, stopped in international waters. Soviet vessels tracked the two boats but did not approach

The families came for to pay their respects to the dead. "Daddy, how are you?" said Mei Osaka, a 9-year-old girl who spoke at a memorial service on deck.

"We're all standing firm," she said, reading from a piece of paper.
"Sister and I are studying hard, and morniny is working until late at night. Sometimes I massage her shoulders. Come back early, dad-

The ferry rocked gently and a sudden rain swept the faces of rela-tives as they leaned over the railing to peer at the dark waters. Many wept. All threw chrysanthemums into the sea and some tossed in clothes and other personal items.

On the voyage home, their frustration over the events since the girlings was they done to the personal training that the sea to the s

airliner was shot down began to surface.

"The victims whose precious lives have been sacrificed as 'a means of political maneuver can never rest peacefully unless the whole truth of the incident is brought out into the open,"

# Sikhs Threaten March On Army-Held Temple

By William Claiborne

Washington Post Service NEW DELHI — A "world coovention" of Sikhs held Sunday in the holy city of Amritsar issued a one-month ultimatum to the Indian government to withdraw army troops from the Golden Temple complex or face a vast march led by the five head priests of Sikhism to "liberate it of army occupation."

The Sikh religious conference, held to the northern state of Punjab in defiance of a government ban, also excommunicated the two highest-ranking Sikh government offi-Singh, the parliamentary affairs

# China Refugee Returns; Friends Fear Abduction

By Jay Mathews

ington Post Service LOS ANGELES - A petroleum engineer who fled from the Chinese Consulate in New York in April to seek asylum in the United States has mysteriously returned to Chi-

A State Department spokesman confirmed Saturday that Zhang Zhenggao, 47, had returned to his country. Friends of Mr. Zhang in New York say he was kidnapped by Chinese Consulate officials. A Chinese government spokes-

man said Saturday that Mr. Zhang returned home voluntarily after receiving a letter from his wife. But Mr. Zhang's friends and his American attorney said much of the evidence indicates otherwise. Mr. Zhang vanished in July from

his apartment in Brooklyn. His disappearance is believed to be the first such incident involving any of the more than 1,000 visitors and scholars from China who have sought political asylum in the Unit-ed States in recent years.
"I am sure he was kidnapped,"

said Yang Huaian, a friend and

fellow defector who lived near Mr.
Zhang in New York.
Mr. Yang said that Mr. Zhang,
who had escaped from the Chinese
Consulate on April 12 had never expressed any interest in returning to China despite receiving letters from his wife and two children in Chengdu, the capital of Sichuan

pan, or Chongryun, which says it has 200,000 members. Mr. Zhang, Mr. Yang said, bad asked for help in reaching the Tai-wanese authorities after recent U.S. A Chongryun spokesman said the group received \$6.2 million in aid from North Korea last year, court decisions against other Chinese defectors led him to fear that mostly to help support a network of schools, trading companies and credit associations and a news serhis application for asylum in the United States might be refused. Dr. Wang Bingzhang, a buman rights activist who arrived in the United States in 1982 and who

Both groups emphasize Korean culture. Chongryun, for example, requires that Korean be spoken in heads the New Yorki-based Chinese Alliance for Democracy, said he had received reliable information from sources inside China that Mr. dents wear traditional Korean dresses. They are not interested in Zhang had been convicted of treabecoming Japanese, they say, only soo shortly after returning to Beijing on July 20. Some of the Koreans, growing

Mao's Portrait Reappears Over **Beijing Gate** 

BEIJING — A large portrait of Mao has been put up agaio on the Gate of Heavenly Peace in Beijing's Tienanmen Square, ending speculation on the picture's fate.

The portrait of the late Chioese leader, showing him with a half-smile, reappeared over the weekend after the completion of repair work on the imposing gateway in time for national day celebrations next month. The maroon-colored gate from which Mao proclaimed the es-tablishment of People's Repoblie of China on Oct. 1, 1949, lies at the entrance to the Forbid den City, once the home of Chi-

na's emperors. Speculation among some Beijing residents about whether Mao's portrait would be put back was fueled by an article about the restoration in the Communist Party newspaper, the People's Daily, which failed to mention the matter.

#### Guerrilla Bomb at Airport In Kabul Is Said to Kill 30

ISLAMABAD, Pakistan - A bomb killed at least 30 people and injured 100 Friday at the Kabul airport, according to Kabul radio and Western diplomats.

The explosion, announced by the state-run Radio Kabul, came after a string of guerrilla raids on Ka-bul's Khwaja Rawash International Airport, which doubles as a key air base for Soviet and Afghan military aircraft.

Afghan exiles and Western dip-lomats said Sunday that the attack was probably the deadliest guerrilla strike yet in the Afghan capital. They said that in November 1982 four bomb explosions in restaurants used by the Afghan secret police killed more than 20 people. Smaller blasts have occurred since

then, they said. Radio Kabul said only that several women and children had been killed when a rebel bomh went off outside the heavily guarded airport

and New Delhi gave the higher toll. They said the explosion had oc-curred in the check-in area and had probably hit passengers waiting for flight on the state-owned Ariana Airlines to Tashkent, capital of Soviet Uzbekistan,

Guerrillas stepped up attacks on the airport in August, the diplomats said. The airport, the base for frequent raids by Soviet jets and helicopter gunships north and southeast of Kabul, is being enlarged under a program financed mostly by Moscow.

■ Defection Reported

An Afghan tribal chieftain who had collaborated with the Sovietbacked government in Kabul has defected to Pakistan with hundreds of armed followers, gnerrilla sources io Peshawar, Pakistan, have told The Associated Press.

The sources said Ghulam Hassan Khan Karo Khel marched across the border Wednesday.

# **Swiss Bank Corporation:**

# We can help you package that international trade deal.

"Sometimes, making the sale is the easiest part of an export transaction, and you need an innovative banker who can see beyond the problems of trade financing to make the deal a success."

Paul Lachausse, First Vice President

If you're getting involved in international trade, you'd better do your homework. It's not always easy-but it's a lot easier than trying to salvage whatever's left over if the transaction runs into trouble with another country's import/export restrictions, payment practices, currency problems, etc. It helps to have an experienced international banker on your side. Not only for advice on the mechanics of the transaction, but to work out creative, overall solutions to complex problems. With our international tradition and our home base in multilingual Switzerland, we've helped put the finishing touches on a lot of trade packages over the years. This may be why our customers keep coming back. Because they tend to do their homework, too.

vestment hanks under such names as CATs and TIGRs: These issues were showing yields of about 12.90 percent.

One reason for the gap is that Japanese investors, heavy buyers of zeros, are barred by their government from buying CATs and TIGRs. The Japanese are free to chase after the AIG and the ADB bonds, though Some dealers suggested that AIG would use the proceeds from its issue to buy higher-yielding CATs or

TIGRs. That would provide investment income of more than a percentage point above AIG's borrowing cost. Thus, AIG would show a profit of \$10 million over the 20-year life of the bonds, a dealer

"That elearly would be one investment opportunity," said Edward Matthews, AIG's executive vice president, finance, who described the company's borrowing terms as "extraordinarily favorable." Mr. Matthews refused, however, to commit himself to

any specific use for the funds, Such tempting terms may well draw more U.S. corporate borrowers into the market, dealers said Friday, though one cautioned: "A lot of people don't need money," given the huge eash balances piled up by many corporations during the U.S.

"NTIL last week, new U.S. regulations governing overseas bond sales were creating so much confusion that most U.S. corporations preferred to shun the Eurobond market.

Last Tuesday's clarification from the U.S. government cleared up much of that confusion.

Under the new regulations, U.S. corporations can sell bearer, or nonregistered, bonds directly to foreign investors without the added expense of routing the paper through a Netherlands Antilles subsidiary. European banks and securities firms will not be required to certify that interest on such bonds is not being paid to U.S. citizens or residents trying to evade taxes, the U.S. government said last week. U.S. banks and securities firms still must provide such assurance. But Europeans had warned that a nent for the paperwork and turned away investors who insist on anonymity. European dealers and investors generally welcomed the U.S. statement. "We're very much relieved," said Pierre Pictet, a

partner at Pictet & Cie., a private bank based in Geneva. Because

## **Yugoslav Price Controls Ended on Most Products**

BELGRADE - Yugoslavia has ended price controls on nearly all products and services in a move aimed at introducing market economy rules and controlling inflation.

The action Saturday was considered a major step in a long-term stabilization program that the government is pursuing to pull the country of 23 million people out of an economic slump.

 $\mathbb{E}(\mathbf{M}(\tau)) \mathbb{E}[\lambda(t)] \stackrel{\mathrm{def}}{=} \mathcal{O}_{0}(\mathbf{N})$ 

Yugoslavia's unique workers' self-management economic system has been plagued by a \$20-billion deht to Western creditors and a 40to 60-percent annual inflation rate.

Under a government decree that look effect Saturday, only 8 percent of products remain under price controls. They include wheat. corn and some unnamed "strategic" industrial products.

The prices of 37 percent of goods will be established through "self-managing agreements" between the producers and consumers while 55 percent of the prices will be

established freely by the producers. Among goods and services affected are meat and processed meat products, sugar, fat and edible oil, cigarettes, gasoline and heating oil, coal, ferulizers, cars, agricultural machines, household electric appli- lion to Western creditors.

ances, cement, footwear, textiles and public transportation faces, of-

In the past, businesses needed to get formal approval from the government to increase the prices of their products

"More freedom for producers means bigger responsibility for them," said a government spokes-man, Dimitrije Tasic.

He told reporters that the federal

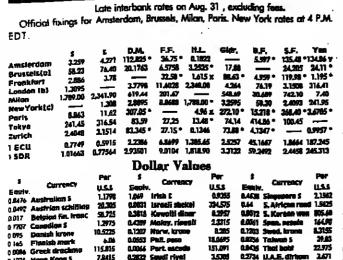

government and governments of ugoslavia's six constituent republies can still take measures against companies that raise prices too

Government officials said the authorities would order banks to cut credit to those companies that violate the price policy.

Austerity measures have cut the standard of living over the past three years by about 30 percent. The government wants to hold the inflation rate to 40 percent this

The federal government, in cooperation with the International Monetary Fund and Western commercial banks, has rescheduled loans due this year totaling \$2 billion over the next seven years with a four-year grace period. In 1985, Yugoslavia is due to repay \$5 hil-

# Debt Plan Ratified in Santiago

Latin Nations, U.S. in Accord

SANTIAGO - Latin American nations have reached modest agreement with the United States on their debt problems and hope the development will open a new phase of inter-American cooperation.

But some ministers attending an economic meeting of the Organiza-tion of American States said industrialized countries and international lending agencies had still to share responsibility for the region's \$350-billion foreign debt. "We observe that only debtor

countries have assumed the responsibility they have, and have assumed it at great sacrifice." Modesto Collados Nuñez, economy minister of the host country, Chile said at a meeting of the OAS's Inter-American Economic and So-cial Council, which ended Friday.

The ministers ratified on Friday an agreement to press international lending agencies to ease restrictions on granting new funds to debtor

The agreement was contained in a resolution co-sponsored by the United States, Bolstered by what they see as a

modest change in the U.S. approach, the delegates said debate on the region's debt would move to a higher political plane with a meeting of finance and foreign ministers from 11 Latin American countries in Argentina on Sept. 13-

The meeting will enable the region to present a common front on debt at the annual meeting of the International Monetary Fund in Washington on Sept. 25. The United States remained si-

lent at the OAS meeting on the high interest rates that Latin American countries complained were crip-pling their already hard-pressed The Peruvian economy minister,

José Benavides Muñoz, said some countries in the region were having to use more than 90 percent of their export earnings to service debt. The Latin American ministers also denounced growing world pro-

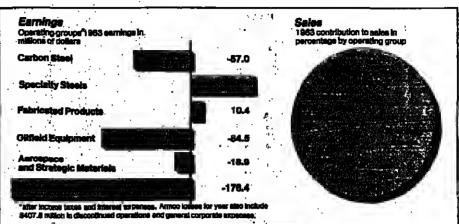

The meeting also passed resolu-tions urging the United States oot to restrict imports of copper and steel, a measure recommended hy the International Trade Commission to protect U.S. producers.

#### ■ Mexico Firm on Debt

Richard J. Meislin of The New York Times reported from Mexico: President Miguel de la Madrid on Saturday firmly rejected any plan that would result in Mexico's failing to repay its international debts, saying it would have "graye

The statement, in the president's annual report to Congress and the country, was his strongest against talk of joint action by Latin American debtor countries and domestic pressure for Mexico to suspend payment of its foreign debts in or-der to provide more money for in-

# Armco Acquisition Strategy Backfires

#### Some Divisions Are in the Red

By Daniel F. Cuff New York Times Service NEW YORK — For the tronbled steelmakers in the United States, an increasingly popular strategy for survival has been di-versification. Armoo Inc., the frith-largest steelmaker, blazed that trail decades ago. But if the strategy has had mixed results for some in the industry, it has been particularly unkind to its pioneer: Although Armeo's steel operations currently show a profit, some of its other businesses are dragging down overall re-

While many of the major steelmakers were reporting second-quarter profits, Armoo posted a loss of \$14.1 million, eveo though its carbon steel operations showed an operating profit of \$23 million.

In diversifying, Armeo took on the problems of other struggling industries. Its oil-drillingequipment business, National Supply Co., fell into the red when the oil industry shamped. And Armco is bleeding from the operations of its insurance companies, which it has been trying to unload. Analysts say that Armco's Harry Holiday Jr., the

chairman of Armco Inc.

problems are only partly self-in-flicted. "They obviously made a bad acquisition in insurance," said Charles A. Bradford, a steel analyst at Merrill Lynch. "The others are not that bad, but are now mostly hurt by industry fac-

As a result, at a time when the outlook for steehnakers has im-proved, Armeo surprised Wall Street late last month by omitting its 10-cent quarterly divi-

dend to conserve cash.

Harry Holiday Jr., the usually voluble chairman and chief execntive officer of Armeo who speaks out forcefully against steel imports, was oot available for an interview to discuss Armco's strategy, according to a spokesman at the company's headquarters in Middletown.

Mr. Holiday and other execu tives at various times in the past have predicted turnarounds and new roads to recovery for Armoo. In 1983, however, the company incurred a loss of \$672.5 million and Mr. Holiday, in the annual report, character-ized the result as "dreadful." The spokesman, Scott Aiken, said company officials thought that they have done enough talking for the moment and now wanted to show results.

The third quarter will be a difficult time to improve results, however. Losses are expected to continue through the rest of the year for the drilling-equipment business, and steel shipments are down, with only break-even re-sults expected for the industry. Analysts say the sale of its insurnce operations to help reduce debt is a critical step.

The irony is that, in steelmak ing alone, Armoo is riding high. Peter F. Marcus, steel analyst at Paine Webber, gives high marks to Armeo for improvements in its carbon-steel operations.

The company is shutting its last ontmoded open-hearth furnace at the Middletown works as part of its modernization program. It closed its Houston works last year after 42 years on the Houston Ship Channel, when (Continued on Page 9, Col. 1)

# **U.S. Airlines Get Antitrust Waiver** For Delay Talks

By Reginald Stuart New York Times Service

WASHINGTON - The Civil and Justice. Aeronautics Board has given U.S. airlines an antitrust exemption to sion contended that allowing carrilet them discuss ways to reduce air ers to develop their own scheduling traffic congestion and delays, despite opposition from the Federal achieve monopoly power, some-Trade Commission.

Department of Transportation an- scheduling committees." nounced Friday that discussions among the airlines would begin

Transportation Secretary Elizabeth Hanford Dole said she hoped the airlines would solve the probtem and thereby avert a need for the federal regulation her depart-

ment has proposed. The action by the federal regulatory panel gave the airlines 45 days in which to develop a plan for solv-ing a situation that has angered millions of travelers who have ex-perienced lengthy delays because of overcrowded departure and arrival schedules, primarily at six ma-

jor airports.
Three of those airports, Kennedy International, La Guardia and Newark, serve the New York metropolitan area. The others are O'Hare International in Chicago, Stapleton in Denver and Hartsfield in Atlanta.

According to the Federal Aviation Administration, the six air-ports account for 76 percent of all delays nationwide. A delay is defined as when a flight is 15 minutes or more beyond the scheduled departure time

About 100 domestie and foreign carriers are expected to participate in the meetings, which will be open to the public. One day will be devoted to each airport.

Permission to talk with competing airlines had been sought by Eastern Air Lines and 18 other ma-

jor carriers and supported by the Departments of Transportation But the Federal Trade Commis

rade Commission. thing that they are unlikely to be Immediately after a 5-0 vote, the

Should the industry fail to develop a plan, the Department of Transportation has already filed a Notice of Proposed Rule Making that would give it authority to assign arrival and departure times on a minute-by-minute basis at six

major airports until April 15, 1985.
On the legislative front, Representative Guy V. Molinari, Republican of New York, said he would introduce legislation this week that would grant the FAA authority to set schedules at the six airports In a statement, the CAB said that action by the agency was need-

ed because "our nation's air transportation system is currently facing a substantial delay problem." In reflecting the Reagan administration's anti-regulation philoso-phy, however, it noted that regula-tion of schedules "has a great

impact on the airlines' ability to compete with each other." James E. Landry, senior vice president and general counsel for the Air Transport Association of America, a Washington-hased trade association, said that millions of dollars ride on which carriers fly where and when, and with nearly

100 carriers involved, discussions would not be easy. However, he and other industry representatives added that, faced with the prospects of government reregulation, there would likely be a motive for compromise

# U.S. Is Facing Criticism Over Its Textile Policy

By Ronald Farquhar

GENEVA —The United States effects.

faces angry attacks here this week from Third World textile exporters who are incensed by U.S. action against the new regulations affecting the country of the countr sales and hurt their trade by raising import duties.

The General Agreement on Tariffs and Trade, which sets the rules for much world commerce, has called a special meeting of its 50member textiles committee on Tuesday to thear the exporters' grievances.

These are directed at new U.S. regulations for determining the way U.S. textile import quotas are applied to producing countries, and also an investigations into al-leged unfair subsidizing of textile exports by 3 Third World produc-

A group of 28 developing states, including such textile exporters as Hong Kong, South Korea and China, said last month that the measures were discriminatory and de- country's quota.

signed to harass and restrain trade

ington decided to delay putting the new rules into effect for seven weeks to exempt imports of clothing with an estimated value of ocarly \$500 million already ordered for the Christmas selling season.

The new, stringent "country-oforigin" rules were due to come in to effect next Friday, but the U.S. Customs Service announced that all textile consignments ordered before Aug. 3 and shipped by Oct.

regulating most world trade in textiles.

U.S. importers and retailers say the rules will disrupt business by 31 would be exempt. U.S. officials say the new rules

are intended to halt widespread evasion of quotas by foreign manufacturers who ship partially completed clothing to other countries for re-export to the United States as finished goods under the second

"substantially transformed."
Textile exporters complain in this way, the United States has suddenly and unilaterally changed its mind on producer practices that it had recognized administratively and juridically for many years.
They also contend that Washing-

ton is violating its commitments under the Multi-Fiber Arrangement, an international agreement regulating most world trade in tex-

causing uncertainty, lead to higher prices for the U.S. consumer and threaten trade relations.

The exporters regard the measures as a product of the U.S. presidential election campaign, and are intended to win votes in textileproducing areas in the Southern.

The new rules impose stricter tests to determine whether an article has been sufficiently changed in a second country to qualify it for inclusion in that natioo's quotation of U.S. textile producers and labor unions, into alleged unfair subsidizing practices by 13 exporters in Asia, Europe and Latin America. Petitions to the section.

The new rules impose stricter tests to determine whether an article has been sufficiently changed in a second country to qualify it for inclusion in that natioo's quotation.

They also see political motives behind investigations, initiated by a color and labor unions, into alleged unfair subsidizing practices by 13 exporters in Asia, Europe and Latin America. Petitions to the section. in a variety of unfair subsidy pro-

If the U.S. Commerce Department determines that the goods are being unfairly sold in the United States, it can impose penalty duties equal to the amount of the subsi-

Some diplomats here view the GATT textile committee session, expected to last at least two days, as a prelude to tough negotiations next year on renewal of the Multi-Fiher Arrangement, which expires in mid-1986.

The GATT secretariat in a recent report questioned the value of the accord in view of tightening import restrictions and suggested phasing out restraints and bringing the textile trade under GATT rules aimed at freeing the flow of commerce.

# 7 Members

WASHINGTON —Seven mem

bers of a U.S. presidential commission appointed to resolve a controversy over state taxation of multinational corporations have taken issue with Treasury Secretary Donald T. Regan over his threat to support federal legislation to settle

Mr. Regan said July 31 that he would seek a federal legislative solution unless the states make "appreciable progress" toward rewrit-ing their tax laws to eliminate problems by oext July 31. Mr. Regan's statement was contained in his own report to President Ronald Reagan based on meetings of the working group of state, federal and corporate officials who studied a method of corporate taxation

known as the "unitary" system. The issue involves a tax concept under which a U.S. state collects taxes from a corporation based on a formula that takes into account the corporation's worldwide earnings. A dozen states have adopted such a policy, although some states have recently moved to alter their

approach.

The seven officials who were part of that effort on Friday disassociated themselves from Mr. Regan's deadline for states to act. The seven were governors George Deukmejian of California and Scott M. Matheson of Utah; H. Lee Moffitt, the speaker of the Florida house; John B. Tucker, speaker of the New Hampshire house; Owen T. Clarke of the National Association of Tax Administrators; David E. Hething, vice president of the National Conference of State Legislatures, and Kent Conrad, chairman of the Multistate Tax Commission and North Dakota's tax commissioner.

Such a new and unnecessary deadline ignores the fact that legis lative and executive action by both the federal and state governments may well require more than 11 months to complete," they said, adding: "We reiterate our own opposition to federal restrictions on the states' authority to design their rating risk is worrisome to some tax policies."

#### Some Executives of S&Ls Said to Have Taken Unprecedented Risks in Search of Profits By David A. Vise

Washington Post Service
WASHINGTON — The crisis at

Financial Corp. of America, the largest S&L in the United States, has illuminated the dark side of the deregulation of the thrift industry, officials and experts say.

The plight of the California S&L

symbolizes the unprecedented risks some S&L executives have courted in hopes of higher profits.

A deregulated environment al-

lowed the California S&L to expand too rapidly through aggressive marketing and leading, questionable accounting and a multibillion-dollar acquisition, experts said. In the past six months, the company's assets have grown to \$32.7 billion from \$22.7 billion, a dollar change greater than the total assets of all but four other S&Ls in the United States.

After a dispute with the Securities and Exchange Commission over its accounting techniques last month, FCA was forced to restate its \$31.1-million second-quarter profit as a \$107.5-million loss.

On Aug. 15, the company reported that it experienced a net deposit outflow in July of \$582 million, due mainly to a decline in large institutional deposits.

Experts said they believe the resignation last week of the S&L's chief, Charles W. Knapp, and the Federal Home Loan Bank Board's endorsement of the selection of a longtime industry executive, William J. Popejoy, as chairman will go a long way toward restoring confi-dence in the S&L. But they said its fate still is uncertain.

About \$15 billion in certificates of deposit and other term accounts at FCA were scheduled to mature in the three months ending Sept. 30; some already have been withdrawn while others have been re-

has weakened investor confidence holding company for American throughout the industry, although Savings & Loan Association, the that is hard to measure, and there are renewed calls for closer regulatory supervision to prevent what happened at FCA.

There is no way the bank board

should let any other companies have such a large proportion of its portfolio in riskier construction and business loans," said Robert Gordon, an analyst with Bateman, Eichler, Hill & Richards in Los Angeles. "And is it appropriate for S&Ls to have such large amounts

A powered scale model of the GE engine, known

# "When savings and loans were of them paying the same premium for insurance," said Anthony M.

Frank, chairman of First Nation-

wide Savings and a director of the

San Francisco Home Loan Bank. "With the wide latitude we have now, charging the same premium for every institution is like Prudential Insurance charging the same life insurance premium for Barney Clark and Bruce Jenner," Frank said. Mr. Clark, who is dead, was the first recipient of an artificial heart, while Mr. Jenner won the decathlon event in the 1976 Olympic Games.

The problem is that somebody

has to step forward and say one

institution is riskier than another

and therefore should pay higher

premiums. To have bureaucrats

people in the industry." Mr. Frank suggested that private insurance companies should do the rating, and he criticized industry executives - who attract deposits on the basis of government guaran-tees of their safety (up to \$100,000) while opposing attempts to publicly recognize the varying degree of risk among S&Ls.

He also pointed out that, even though FCA's principal subsidiary is state-chartered and state-regulated, federal regulators have made all the decisions and public statements in recent weeks. An examination of the division of labor between state and federal regulators must take place, Mr. Frank said, adding that, unless state regulators take a more active role than they have with FCA, they will find federal authorities usurping their power.

Many experts believe the indus-(Continued on Page 9, Col. 4)

In 2d Quarter By Eric N. Berg New York Times Service NEW YORK - The American Petroleum Institute has reported a sharp drop in natural gas explora-tion in the United States during the Business credit demands rose

second quarter. Energy experts said the decline indicated a growing unwillingness hy producers to search for gas unless an area is known to contain

In its quarterly review of drilling activity, the institute, a trade asso ciation, said Friday that 352 exploratory natural gas wells were drilled nationwide in the quarter down from 585 wells drilled a year earlier. Although the amount of ex-ploratory drilling has been declin-ing since early 1983 because of stagnant or falling prices, experts said the most recent drop was unexpectedly large.

"i'o an extent, we are seeing a hesitancy to enter new areas because of uncertainty over demand and prices," said Michael I. Ger-man, a vice president of the American Gas Association, a trade group representing pipeline companies.

Mr. German and other experts said the supply of natural gas in the United States continued to exceed demand hy about 10 percent. This surplus has caused prices at the wellhead and at the ennsumer level Mr. Popejoy spent his first day on the job last week in New York as much as 5 percent in the past as much as 5 percent in the past ey managers to renew their jumbo year.

Beyond that, bowever, many ex get the help of investment bankers perts interviewed Friday attributed the decline in gas exploration to to line up alternative sources of the decline in gas exploration to funds to offset the outflow of degrowing doubts about whether de posits at American S&L, FCA's principal subsidiary. # 'That's the difference'

The fast-growing markets and economic potential of the Pacific Basin may be news to many - but they're hardly new to Standard Chartered.

In fact, we've been part of the local economic and business scene for more than a century.

And that's good news for our customers.

Because we know the markets in more detail, we can give sounder advice and more constructive help on doing business in

Because we've got a stronger branch network, with more than 250 offices in the area, (including

our subsidiary Union Bank in California) we can provide faster, more efficient service.

And because our range of facilities covers everything from the financing of individual shipments, through foreign exchange dealing in all the local currencies, to major project finance and merchant banking, we can offer you a genuine

one-stop financial service that few other banks can match - in the Pacific Basin, or elsewhere.

Find out more about the Standard Chartered difference at any of our 2000 branches in more than 60 countries. It could make all the difference to you.

#### Bank of Israel Reports Sharp Fall In Reserves

TEL AVIV - The Bank of israel released bleak figures Sunday on its faltering economy, announcing that foreign-currency reserves fell by \$192 million in August.

It was the second month running that reserves had been below the "red line" of \$3 billion, regarded by economists as the minimum working level needed to finance three months' imports of basic commodities.

Foreign reserves are oow \$2.41 billion, the bank said, compared with \$3.52 billion in August 1983. Bank officials said the drop in August was largely the result of repayment of U.S. loans to Israel during the 1973 Middle East War.

The government, plagued by 400-percent annual inflation, printed a record 135.4 billion shekels (about \$420 million) in August, the bank said.

Since last month, the bank has included \$325 million held privately hy foreigners in the country's official reserve figure, prompting charges that it was covering up the country's slide to bankruptcy.

# Confidence in Economy, City Changes Spur Midsummer Mergers in U.K.

By Barnaby J. Feder New York Times Service LONDON - The tone was set in May, when Thorn EMI PLC, a multitentacled consumer-electronics and entertainment group, astonished the City of London by announcing that it was discussing a merger with British Aerospace PLC, the partly state-owned mis-

that is Europe's largest private aerospace enterprise.

That merger, which would have linked the pop group Duran Duran and television rentals with jet fighters like the Harrier, never got past the talking stage. But it was followed by numerous other bids and transactions that were, in the eyes of the City, London's financial center, less peculiar but equally inter-

esting.

The mergers have simmered right through July and August with a distinctly un-British disregard for summer vacations.

Last week, Hongkong & Shang-hai Bank announced that it will acquire James Capel & Co., one of the City's largest stockbrokers, for an undisclosed sum. Mergers ex-perts cannot help but wonder what will come next.

"Typically, when chairmen come back from the seaside, they have been thinking about what they might do to have something to

275 125

55e E.S.

*5*2 5.5

Philip Evans, a mergers and acquispecialist.

sitions specialist at Morgan Grenhas been so busy that we just don't know what to expect."

No figures are yet available on the total value of the mergers, but the pace of the dealing has been sile, satellite and aircraft maker strong. In the second quarter, the last for which figures are available, more than 150 companies were acquired, according to the Department of Industry, the most since the last quarter of 1978.

> The driving forces have been the continuing restructuring of the ownership limits are lifted.
>
> City itself, with banks and brokers
>
> More general forces have regrouping to cope with changing securities-trading regulations, and the generally healthy condition of the stock exchange and company

The pressure for change in the City has led to acquisitions far more eye-catching than the straightforward takeover proposed for James Capel. The most intriguing so far has been the plan announced two weeks ago to merge Mercury Securities PLC, the parent company of the investment bank S.G. Warhurg & Co., with Ackroyd & Smithers PLC, a leading stock wholesaler, Rowe & Pitman, one of

the City's largest stockbrokers, and

show for the rest of the year," said Mullens & Co., a government bond

The City mergers are premised anyone from owning more than 29.9 percent of a stock exchange member. It is assumed that the limitation will soon be lifted as the exchange moves toward abandonment of fixed commissions, because its members will need greater capital resources.

Almost all of the City's major securities dealers have now concluded agreements that will make them subsidiaries of larger, more capital-rich enterprises after the

More general forces have been behind such developments as Stan-dard Telephooes & Cables PLCs successful \$538-million courtship of computer company ICL PLC. Sun Alliance & Londoo Insurance bid for British Aerospace was PLCs \$520-million takeover of Phoenix Assurance, and the sugar giant Tate & Lyle PLC's so far unaccepted bid of about \$541 milhon in shares and cash for Brooke Bond Group PLC, the world's largest tea company. The factors at play include:

 Higher cash reserves and lower debts on the balance sheets of efited from Britain's steady eco-nomic recovery and the U.S. boom.

In mid-August, the spotlight shifted to Racal Electronics PLC, one of Britain's most successful military electronics companies, when it announced a cash and shares bid valued at about \$191 million for Chuhb & Son PLC, the locksmith whose electronic security systems had caught Racal's eye.

Chubb is fighting the bid.
Chubb's fight, along with that of
Brooke Bond, has engendered rumors of American "white knights" entering the bidding. One of the summer's surprises has been that oo major mergers have involved U.S. companies, even though the pound is near record lows in relation to the dollar.

Australia Aluminum Target

BURGENSTOCK, Switzerland -Australia hopes to produce more

than one million metric tons of aluminum a year by the end of this decade, Dennis Ives, deputy secretary of the Resources and Energy Department, said Sunday in an address to an international commodequity markets for James Capel, speculate that Americans may be are expected to outperform the pound io years to come as North Sea oil production peaks.

Another factor may be that some of Britaio's more attractive companies may be shielded from foreign takeovers. General Motors was reported to have been interested in Jaguar PLC, but the government ebose to sell the luxury car maker to the private sector last month in a stock flotation. Similarly, AT&T ran into political burdles in its approaches to lumos.

The same might have occurred if Pacifie Telesis had tried to buy Mercury Communications PLC. the start-up company licensed to compete with state-owned British Telecom in offering telephone ser-vices. In the end, Telesis was uoable to pursue its interest because of an American court-imposed ban on foreign investment by Telesis

and the other operating companies furmed in the break-up of AT&T. Finally, Cahle & Wireless PLC, a 50 percent owner of Mercury, took full control of the closely watched fledgling enterprise when British Petroleum decided to sell out its share early this month.

#### Japanese Firms Report Profits Climbed in Year

TOKYO - Japanese companies reported an average 4.9percent increase in profit for the year ended March 31 after two years of declining profit, including a 6.1-percent drop in the previous fiscal year, according to the Finance Ministry's annual survey.

Average corporate sales rose 2.1 perceot in the year ended in March, after a 2.4-percent gaio in the previous year, the survey, which was released Friday, showed.

The report, which did not inelude hanks and insurance companies, said manufacturing industries posted an 11.4-percent rise in profit after a 7.5-percent decline the previous

But profit of nonmanufacturing industries fell 12 percent after a 4.7-percent drop in the previous year.

Sales in manufacturing industries rose 6.7 percent after a 1.3-percent drop in the previous year, while sales in nonmanufacturing industries rose 0.1 percent after the previous year's 4.1-percent gain.

Soviet Woman Breaks Mark in Pentathlon

HOERSHOLM, Denmark (AP) - Svetlana Jakoleva set a world record Sunday

of 5,481 points to win the women's modern pentathlon world championships.

Jakoleva's score, breaking the mark of 5,433 set by Britain's Teresa Purton, led the

Soviet team to the gold medal with 15,389 points, followed by Poland (15,174), West Germany (15,117) and Denmark (15,097).

Defending champion Lynn Chornobrywy of Canada finished seventh individually with 5,167 points. The competition comprises equestrian show jumping, fencing,

The United States, leader after three events, dropped to seventh overall with 14,959 points, behind Britain, with 15,028, and Canada, with 15,048.

Lowly Mariners Dismiss Crandall as Coach

SEATTLE (AP) - Del Crandall was fired Saturday as manager of the Seattle

SEATTLE (AP) — Det Crandall was tired Saturday as manager of the Seattle Mariners, who, with a 60-76 record, are in last place in the American League's Western Division. Third-base coach Chuck Cottier was named interim manager. The decision to dismiss Crandall, the Mariners' fourth manager in their eight seasons and a former five-time National League All-Star as a catcher, was made by club President Chuck Armstrong and General Manager Hal Keller.

Crandall was fired less than two weeks after Argyros had solidly endorsed:

#### THE LAND OF ULRO

By Czeslaw Milosz. Translated by Louis Iribarne. 287 pp. \$17.95. Farrar, Straus & Giroux, 19 Union Square, New York, N.Y. 10003.

Reviewed by Michiko Kakutani

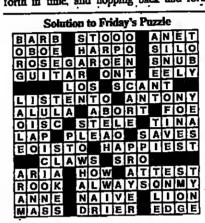

BORN in Lithuania and educated in Poland, the Nobel Prize-winning writer Czesiaw Milosz migrated to the United States two decades ago; and his sense of exile permeates both his poetry and prose. For Milosz, man's expulsion from the Garden of Eden was far more than a biblical story; it was a meta-phor for his own life and his homeland's rude initiation into history. In "The Land of Ulro," he uses that same parable of man's fall from grace to explain the modern world's decline from a pre-Enlightenment state of innocence to the spiritual wasteland we inhabit today.

It is not an accessible work, "The Land of Ulro." As Milosz tells the reader in his preface: This book was not intended for you, and I feel "This book was not intended for you, and I feet you should be forewarned before you enter its bizarre tangle." The decision to write it, he adds, "was an act of perfect freedom in the sense that I didn't aim either at pleasing, convincing, conquering or seducing my contemporaries. It was as if I said to myself that a writer can afford to produce in his lifetime one maverick most." erick work.

His warning should be taken to heart. Related as a kind of discursive monologue, "The Land of Ulro" is part intellectual autobiography, part literary monograph, part metaphysical treatise. One of its difficulties lies simply in the unfamiliarity of its subject matter. Milosz carries on extended discussions about such less-than-well-known writers as his consin, the poet Oscar Władysław Milosz, and he liberally quotes the opinions that obscure critics hold of

duotes the opinions that obscure critics hold of slightly less obscure authors.

To make matters worse, there is no clear expository line in "Ulro" — rather, Milosz appears to have set down random thoughts in a free-association pattern, cutting back and forth in time, and hopping back and forth

between the real and theoretical. As a result. reading the book is like having dinner with a brilliant, if somewhat melancholy and irascible, stranger: You marvel at his ideas and bursts of verbal pyrotechnics, but lose his train of thought when, for fear of being indiscreet, he suddenly swerves away from a charming bit of personal reminiscence and plunges headlong into an extended riff about a subject you've never heard of.

Despite these difficulties, devoted followers of Milosz's work will doubtless find that "The Land of Ulro" helps to illuminate many of the intellectual persuasions underlying his poetry and fiction. His interest in Manichaeism, his sense of kinship with such prophetic visionaries as Swedenborg and his youthful struggles to come to terms with Marxism and Roman Catholicism — these matters have already been touched upon in "The Captive Mind" and "Native Realm," but this volume amplifies some of Milosz's positions further, by situating his views in a historical and philosophical ma-

Writing with the moral passion of one who has witnessed many of the formative upheavals of this century firsthand, Milosz is eloquent in his call for a literature grounded in moral, as well as esthetic, values. Indeed, when compared with his own poetry, the work of many Westerners—from the neurotic rantings of the Romantics to the cerebral mind games of the avant-gardists - seems unserious and self-

As Milosz sees it, a terrible schism has developed between the mind and heart of modern man - a schism that began during the Enlightenment, when science and reason were en-throned as household gods. The result has been not merely moral relativism and a false belief in boundless progress, but also a diminution of our cosmos. Indeed, the modern world has devolved into what Blake called "The Land of Ulro," a "realm of spiritual pain," where "man is reduced to a supererogatory number, worse, where he becomes as much for himself, in his

where he becomes as much for himself, in the own eyes, in his own mind."

Drawing upon the writings of individuals who attempted to rebel against the laws of Ulro—including Blake, Swedenborg and Dostoevski — Milosz manages to score some persuasive points about the failures of secular ties political implications. But humanism, and its political implications. But in the end, his book is simply too schematic and impressionistic to coovincingly tackle so huge a theme as the genesis of the modern world's afflictions.

The book's value resides more in the picture

it gives of Milosz's own intellectual and spiritu-al odyssey, and in the handful of personal glimpses it affords of the poet himself — a man with "a pained, bruised, excoriated memory," fearful of the past," who managed to dis-tance himself by spinning, cocoonlike, his incomprehensible language.

Title Fights in Doubt

# In Dallas, a Candidate Emerges

By Ken Denlinger
Washington Part Service
WASHINGTON — The trivial

stuff can be dismissed quickly. Washington wins the National Conference East, Chicago charges atop the Central and the Los Angoles Rams flog the West; New England romps in the American Conference East, Cincinnati sneaks past Pittsburgh in the Central and the L.A. Raiders run wild in the West. New Orleans proves parity by making the playoffs, Walter Payton proves little by breaking Jim Brown's National Football

League rushing record.

Now, the cosmic issue: America at the crossroads. Can the country cope with a change at quarterback? big qustion is who calls signals for

America's team.

The nation has been uneasy for months. Thankfully, the economy has not collapsed. Some insist we've even stood tall during the uncertainty. The decision was finally made last week. It'll be Gary

Lowooy management preters to in his third season of having done to Craig Morton what Hogeboom has done to White. This latest gambucher than in full-throttle flop. With understandable pride, it points to 1975 as the hopeful precent he is unaccustomed to losing. months. Thankfully, the economy has oot collapsed. Some insist we've even stood tall during the Hogeboom at the Dallas Cowboys helm after all.

turn the world aflutter every time the quarterback torch is passed. Green Bay quarterbacks come and go in silence. Nobody much cares who hut-huts in Houston. But most everybody from Maine to Malibu knows that Meredith begat Morton, who begat Staubach, who begat White — who begat Hoge-

Reluctantly. The Cowboys just turned 25, which means if they were buman, instead of robots, they could not even run for the Senate. Twentyfive still is an upstart age, and here a team 22 years younger than the Redskins considers itself the font of football.

the fight a draw.

This may be is an instance of a boxer's growing into his title. Thomas, 26, must work on using his right hand as a complement to the fight and as a complement to the first time—said that his left in favor of the challenger.

The bout inside the 12-round limit, but Bey came out of his corner ner for the ninth and begun stingiable in favor of the challenger. Tom Landry is reverently re-Cowboys Have Ever Known, Hisseconds left in the game, tory may judge him the smartest,

How did Landry come to the conclusion that such a limbo following the sudden with-drawal of Dwight Muhammad fellow ought to be benched in favor Bey, a 27-year-old loung and sergeant who three years ago weighed 290 poinds but was 224 Qawi from his light-heavyweight ti-friday night, has won all 14 of his tile fight against champion Michael. Spinks, The Associated Press reof a pup whose next regular-season start will be his first?

The players told him.

Like others in power, Landry is influenced by polls. And one in a Dallas paper showed a vast major-the defending nation. Page weighed a trim 233 and a. Qawi left ms training camp a returning the middle counds it looked May after appravating a chronic as if his conditioning would be the shighlder impry, fight promoter difference. Bey Mad appeared bytch Lewis said, adding it would stronger in the early rounds. He hot be known until Tuesday whether the stronger in the early rounds. He had be known until Tuesday whether could be gibbered to the content of try to soften. ity of the team wanted Hogeboom. have the longest winning streak in . It generally is assumed that if foot-the country. Miami opened the colball players had any sense they'd be lege football season five days earlihitting golf balls instead of each er with a 20-18 triumph over Au-other. Landry listened anyway, and burn.

> does, Landry hopes, is kick the a 29-yarder and added three-pointcomplacency out of the Computer Cowboys. No more cruise cootrol until the playoffs. You wanted this kid, the coach is saying; O.K., play your butts off to belp him.

his position on one play against the Redskins late in the 1983 regular season, when he tried to audible after being told to try to draw an

went bananas. Cowboy haters went goal in the third quarter after Cox losses.

There may well be a decline in Dallas but, it says here, oo fall. No

fall from the playoffs, anyhow.

Once the hanghty Cowboys went into a season figuring they need get excited about two games — the NFC championship and the Super Bowl. Everything else was preseators of the Super Bowl. son at full pay. Down by 12 at halftime? No sweat - hitch up the pants and run for the post. Not any

With White, the Cowboys are one of about a half-dozen superior teams in the NFL. But, based on results, not as good as the Redskins in critical games. With Hogeboom, This has nothing to do with Ronald Reagan and Walter Mondale. The might slide a bit at the start. Still, the end of the season is all that matters in the NFL, and especially

to fan heaven, from whence they have been gleeful and quick to nation agonized over its pro trea-judge the team dead. Prematurely. nent. The Cowboys had missed the playoffs the previous season.

But as every schoolchild knows the cavalry, in the persons of 12 exceptional rookies, rode to the rescue. The Cowboys not only gained the playoffs, but gave the Steelers fits in the Super Bowl. Mankind had dodged the bullet once more. This crisis might be less easily coped with. For instance, the Cow-

boys' division seems stronger. The Redskins surely are superior to anything George Allen was patching together back then. The St. Louis Cardinals won the division in '75 and are picked by some to finish ahead of Dallas this season.

Thin as they were in many positions nine years ago, the Cowboys were well fortified in one area quarterback. Roger Staubach was Cowboy management prefers to in his third season of having done

# For a team scarcely into NFL 2 TDs in Last 7 Seconds manhood, the Cowboys manage to Beat Florida for Miami

Compiled by Our Staff From Dispatches TAMPA, Florida - Bernie Kosar threw a 12-yard touchdown pass to Eddie Brown for the first of debut, lobbed a five-yard TD pass over freshman defensive back Dartwo Miami touchdowns in the final seven seconds Saturday to rally the Hurricanes a 32-20 victory over

Florida had trailed most of the game, but finally took the lead, 20-19, when freshman quarterback

#### COLLEGE FOOTBALL

Kerwin Bell hit receiver Gary Rolle ferred to as The Only Coach The for a 5-yard touchdown with 41

But it took Kosar only 29 secmost innovative man ever to stalk a onds to move Miami from its 28 into the Florida end zone. The big moments. Now is one of them.

Landry is benching a man who bas won 75 percent of his games as Brown. After Darryl Oliver gained four yards, Kosar hit Brown in the

> Then freshman defensive back Tolbert Bain intercepted a pass from Bell — and returned it 59 yards for a touchdown as the final gun went off, Bell was replacing Dale Dorminey, sidelined for the year with a knee injury suffered in

With their 13th victory in a row. the defending national champions

Miami freshman Greg Cox, who What his naming Hogeboom as tied a Hurricane record with four the starter for the season-opener field goals, opened the scoring with ers of 20 and 27 in the first half. Sophomore running back Darryl Oliver scored on a 21-yard run in the second quarter to give Miami a 16-10 lead at halftime. Cox's fourth Danny White may well have lost field goal, a 26-yarder, came in the nie Jones rushed for 203 yards and

and Oliver had regained the lead Bell, 15-of-30 for 159 yards in his

rell Fullington to Frank Neal; Ray-mond's conversion gave Florida a 20-19 edge that lasted 34 seconds. Brigham Young 29, Pittsburgh 14 Io Pittsburgh, Robbie Bosco hit Adam Haysbert for a 50-yard TD pass with 1:37 left to lift Brigham

Young to a 20-14 upset of Pittsburgh. The Panthers tried to rally, but a drive that began on their 23 fizzled on the BYU 29 with 30 seconds to play. Brigham Young's winning drive

started on its 26 after a Fitt punt with 3:05 to play. Bosco connected with Glen Kozlowski on a 9-yard pass to open the series and hit Haysbert with the decisive pass four plays later. Boston College 44, W. Carolina 24

In Chestnut Hill, Massachusetts, Doug Flutic threw for 330 yards and four touchdowns and Troy Stradford and Kelvin Martin each scored twice to lead Boston College to a 44-24 victory over Western Carolina. Flutic hit 22 of 31 attempts and 285 yards in the first half to belp the Eagles to a 27-0

Texas A & M 20, Texas-El Paso 17 In College Station, Texas, Texas used Alan Smith's 27-yard fourthquarter field goal to win a 20-17 squeaker over Texas-El Paso. The losers' Hugo Castellanos had a chance to tie the score on a 36-yard field goal with 1:45 to play, but the kick hit the left upright.

Tennessee 34, Washington State 27 In Knoxville, Tennessee, Johnthird quarter. scored twice to lead Tennesee past
Florida tied the score at 3-3 on a Washington State, 34-27. The Vols 44-yard field goal by Bobby Ray-mond; running back Lorenzo racked up two TDs and two field offside penalty on fourth down and Hampton then put the Gators goals in their first four possessions then call time for a punt.

Hampton then put the Gators goals in their first four possessions then call time for a punt.

Hampton then put the Gators goals in their first four possessions then call time for a punt. His mind went fuzzy. Landry Raymond added a 30-yard field of four straight season-opener

# A Very Taxing Comma

By William Safire

WASHINGTON — "GOP Tax disfavor, but the hard-liners wanted to say "positively." the front-page headline of Long Island's Newsday. Over the story on an inside page, the headline writer had a little fun with the verb: Comma Punctuates Debate on GOP's Tax Hike Policy."

dependent clause, a poor relative pronoun and a heroic - or villainthe plot at the Republican Conven-tion in Dallas last month, let us first consider the cast of characters.

A dependent clause is like a dependent child: incapable of standing on its own but able to cause a lot of trouble. You can recognize these lovable but traublesome clauses because they begin with a relative pronoun, such as that, which, m, whose - words that stand in for nouns.

These clauses come in two types: Fowler, the great grammarian whom sensible people fullow on that vs. which, called them defining and nondefining clauses.

Here is a defining dependent clause: The president gave an acceptance address that was a sure sign he would run an aggressive cam-paign. The clause in italics defines, or limits, its antecedent, "address": as such, it began with that, which is the best way of beginning a defining dependent clause.

Here is a nondefining dependent clause: The president gave an ac-ceptance address, which was a sure sign he would run an aggressive campaign. Catch the difference? In the earlier example, the defining clause began with that and dealt strictly with that particular address. But in this example, the nundefining clause begins with which, is separated by a comma, and says something different: By giving an acceptance address — any old acceptance ad-dress — he signated his intentinn of running an aggressive campaign. Had he not given an acceptance address and merely said, "Gee, O.K., I'll do it," that would have meant he intended to be nonag-

The fight on the tax plank pitted the hot-eyed anti-tax-increase crusaders against the laid-back pragmatists, led by Senator Bob Dole of Kansas, who did not want to say "never" in future increases. Both sides wanted to give the impression

"We therefore oppose any attempt to increase taxes which would harm the recovery" went the draft. That was deliberately confusing: The pragmatists looked at which would harm the recovery as a This is the story of a truly needy defining clause, unseparated by a comma, directed to the word "taxes." They were against increases in ous - comma. Before dealing with only those "taxes which would harm the recovery," not taxes that would help the recovery by reduc-

ing the deficit. The confusing part was the mis-use of which. The pragmatists did not insist on that, which would have been the better choice to introduce a defining clause, but rested their defining case on the absence of commas.

The anti-tax crowd saw through that Representative Tom Loeffler of Texas proposed the shartest amendment in pulitical history: the insertion of a comma before the "which." Pragmatists objected, but Representative Vin Weber of Minnesota warned, "We'll take that comma to the floor."

The prospect of commas all over the convention floor evidently dismayed the platform committee, which voted to put the comma before the dependent clause. That made the clause unmistakably nondefining - not limited to specific taxes, but applied to the whole idea

AT THE risk of an accusation of which-hunting I must point out that Republicans seem in have an unfortunate aversing to that. In his off-the-record thigh-slapper before gan said, "My fellow Americans, I am pleased to tell you I just signed legislation which outlaws Russia forever." In that sentence, "which outlaws Russia fnrever" is a defining clause referring to the particular legislation and sbould be introduced by the relative pronoun that.
Otherwise, if the clause were led by which and separated by a comma, the sentence would mean that, by virtue of the act of signing any legislation, he had outlawed Russia. ("I just signed legislation, which outlaws Russia forever. Quite different, and not what he

New York Times Service

# Portrait of a Country Doctor, 85

By Edward A. Gargan New York Times Service WESTERLO, New York -The blue spruce now soars

80 feet, its needled branches soreading outward in thick layers. When Dr. Anna W. Perkins planted a three-inch spruce seedling in 1929, right next to her newly built white clapboard house, she had already been prac-ticing "country medicine" for a year here in the foothills of the

For 56 years, Dr. Perkins has tended to the country people bere, where gentle hills full with corn seem draped in coveriets of ercen corduroy.

She watched the Depression ravish these hills. She has seen family farming yield to larger farms. She has seen three genera-tions of men she delivered as babies trudge off to fight in three wars. She has seen generations of children, some gaunt and un-washed, give way to generations healthy and well scrubbed.

"When I first came bere, every bousehold practically had a cow and a pig — they all just took care of their needs, said Dr. Perkins, her 85 years betrayed somewhat by her snow-white hair but belied by the firmness of her handshake. Nowadays, there are just about

a dozen large farms."
In 1925, she graduated from
the College of Physicians and
Surgeons at Columbia University. She completed ber internship
at Bellevue Hospital in Manhattan and then went to practice

"where they needed doctors." "Here I was, a woman, a doctor and a Catholic," Dr. Perkins said of her arrival. "There were no Catholics when I came. The next year I built this bouse in a field. It took quite a while before I wasn't a city person." She has never returned to New York City.

No longer is her house sur-rounded by fields. Now Main Street is lined with simple wooden houses set back on well-kept lawns. Grain siles and cow barns dot the valley below this village of 450 people. Along the back roads, though, mobile homes and tired, tar paper-covered bnuses -clotheslines running from rickety porches - reveal some of the poverty that creeps through these hills.

Dr. Perkins: Delivering children and watching birds.

Nearly everyone around here comes to Dr. Perkins, to the of-fice she has kept in her house since it was first built.

The Helderbergs, as the foothills are known, and medicine have both changed much in the six decades since she graduated from medical school, Dr. Perkinssaid. "It's very different. When I came here, there were little schoolhouses of a few children. A lot of children weren't very clean, nits in their hair, scabies, their teeth bad. I remember one long building of children with measles. You saw what you could do to

make them comfortable -- sensible, ordinary things. When I first came the only medicine was morphine, quinine and aspirin. Roughly speaking, that was it."

Dr. Perkins is given to firm views on individual character and the self-discipline that instills good health. "In those days, people's trouble came from outside germs. Now the main trouble comes inside themselves, drinking, smoking, things like that. I think it's wanting something from the outside to come and help you."
Although she has been attend-

day despite a revived interest in the practice. "If you don't have to take the risk, you shouldn't," she While she still makes house calls, she sees patients more regu-

larly at her office, its shelves filled, not with fading magazines but with literature. Flannery O'Connor's "Habit of Being," Umberto Eco's "Name of the Rose" and "The Complete Poems of Emily Dickinson" are stan-dard fare. "You'd be surprised who is reading this when I come

"grand rounds," at the Albany Medical College for decades, she

admits failing to understand ev-

ery recent nuance in modern

medicine. "Some of it you just

can't," she said. "Some of it you

absorb. A lot of chemistry is be-

yond me. But the fundamentals

are still there. You have the heart,

the lungs. If you have the funda-

mentals, you know where your

knowledge stops. You know

Her first 10 or 15 years here,

she said, babies were delivered at

home, a practice that gave way to hospital deliveries. She firmly dis-

approves of home deliveries to-

when to refer people."

When patients are not crowding her office or she is not dashing into the hinterlands in her r-wheel-drive car to see a patient. Dr. Perkins retreats to a nearby marsh to watch birds, a passion fueled in part by the dissaw a young eagle about 20 years ago," she said, hoisting her field glasses to follow the flight of a

Practicing country medicine, Dr. Perkins said, means more than placing a stethoscope to a child's chest and listening. It means listening to people, hearing what they have to say, as well as what their bodies have to say, she said.

In recent years, some medical schools have instituted programs in family practice, "It's very fun-ny," Dr. Perkins said. "They're trying to go back to the nld things. But to get young doctors to go into it, they have to make it into a specialty. It's getting to be much less of a human thing and much more of a scientific thing. I'm in between the way it used to be and the way it's getting to be."

#### BEIJING POSTCARD

# Night Markets Thrive

By Ann Scott

DELING — Shunning the midday heat, most people who live in this parched, dusty, bureaucratic town relegate the afternoon to a two-bour nap.

But once the sun skirts the horizon, everyone who's anyone steps out for a stroll through their neighborhood night market - the latest talk of the town.

The first markets sprang up in June and biossomed into one of the city's most popular attractions — a bub for splurging, snacking, peo-ple-watching, gossiping and show-ing off new clothes.

Hawkers peddling everything from Hong Kong-made nighties to ice crushes set up makeshift bamboo stalls in 13 city markets, draw-

boo stalls in 13 city markets, drawing about 300,000 customers and 200,000 yaan (about \$100,000) a night, Beijing officials say.
"Better buy now — they'll be sold out fast," yelled a skinny clothing peddler with a cement truck voice from his stall off bushing street." Only five thing Wangfujing Street. "Only five yuan spiece," he barked, waving a neon-pink blouse in the face of a girl who had her hair suavely pinned up in a bun.

Farther down the block, customers pressed around street-side tailors, who sat at antiquated, footpowered Chinese sewing machines turning out made-to-order gar-ments in half an hour.

One tailor, in a white undershirt with a measuring tape slung around his neck, traced a pattern with chalk on a piece of silky red polyester and began cutting out a dress. Another took a mouthful of water from a big in cup and spewed it in misty puffs across wrinkled cloth, gently smoothing it out by hand-

pressing, Beijing-style.

A used-book-and-magazine peddler, his wares nn the back of a three-wheeled bicycle, displayed a volume of Lemin's political theory next to an autobiography of the film star Vivien Leigh.

Night market goods may seem tawdry, eccentric or inedible to an outsider, but they have unleashed a minor revolution among Beijing consumers, who until now have had little else to buy. After years of funneling invest-

ment into heavy industry. China remains chronically short of con-sumer goods. "There's been a lot of

over the past five years. So what do you do? You let the private sector take over. You have people dipping into their savings and going crazy and spending like mad," a Western diplomat said.

In permitting night markets, Beijing's reform-minded leaders are also rekindling the spirit of entrepreneurship - all but snuffed out by Chairman Mao Zedone's radical policies of the 1950s, '60s and '70s. Before the markets opened, neighboring shops bolted their doors and pulled down their shades on deserted streets by 8 P.M. Now they do business until at least 9:30 P.M. — boosting monthly revenues by 10 to 20 percent. officials estimate.

Stall owners - half of whom are "getihu," or self-supporting entrepreneurs - pay a small license fee, a graduated tax on profits, a com-mercial tax, and nightly rent to the market's manager.

But the charges aren't high and pricing is flexible, so running a stall can be quite lucrative. "We always sell out quickly," said a middle-aged baker, watching customers munch his sweet, sesame-seed buns and glutinous rice flour candy.

Dozens of people — money in hand — elbowed each other at nearby stalls for beef shish kebabs. cold drinks and "hamhurgers" of grnund muttan and onions wrapped in a wheat dough and fried.

Apart from spurring consun tion, the markets have added a definite flair to Beijing's notoriously colorless nightlife.

Women flaunting breezy dresses and high heels seem in parade past the crowds, more openly conscious of their femininity than they have been for years, long-time Beijing residents say.

Men dress more conservatively,

but smart, flashy sport shirts are beginning to pop up now and then in the ocean of white cotton. In one stall, two color television

sets wired with video soccer drew packs of excited young men, all shoving to the front of the counter to compete for five cents a game. Some Chinese music - a hybrid

nf soft rock and socialist marching times - played in the background. One diplomat said night markets had already caught on in the nearby industrial city of Tianjin and may spread nationwide,
